# Assaf Ben-Kish - Curriculum Vitae

https://assafbk.github.io/website | assafbk@gmail.com | +972(0)-549982536

#### Education

# 2022 - Present: PhD (Direct Track) in Electrical Engineering, Tel-Aviv University, Israel

• Specializing in Deep Learning and Large Language Models

• Current GPA: 99.27/100

#### 2018 - 2022: B.Sc. in Electrical Engineering and Computer Science, Technion, Israel

- Specialized in Machine Learning and Signal Processing
- Final GPA: 91.3/100 Magna Cum Laude, included in the President's honor list and Dean's honor list

#### **Publications**

#### DeciMamba: Exploring the Length Extrapolation Potential of Mamba

<u>Assaf Ben-Kish</u>, Itamar Zimerman, Shady AH, Nadav Cohen, Amir Globerson, Lior Wolf, Raja Giryes. ICLR 2025. link We utilize Mamba explainability techniques to investigate why Mamba's length-extrapolation capabilities are limited, and propose DeciMamba, a context extension method, which can extrapolate to sequences that are magnitudes longer than those seen during training, without requiring additional computational resources or re-training.

### Mitigating Open-Vocabulary Caption Hallucinations

<u>Assaf Ben-Kish</u>, Moran Yanuka, Morris Alper, Raja Giryes, Hadar Averbuch-Elor. **EMNLP 2024**. <u>link</u> Due to their closed-vocabulary design, existing hallucination metrics and algorithms ignore many hallucinations produced by SOTA image captioning models. By leveraging recent progress in generative foundation models, we propose a unified framework for quantifying and mitigating open-vocabulary hallucinations.

Bridging the Visual Gap: Fine-Tuning Multimodal Models with Knowledge-Adapted Captions
 Moran Yanuka, <u>Assaf Ben-Kish</u>, Yonatan Bitton, Idan Szpektor, Raja Giryes. NAACL 2025. <u>link</u>
 We identify that fine-tuning Vision-Language Models (VLMs) on dense captions leads to increased hallucination rates, and propose KnowAda, a model-specific data augmentation method which mitigates hallucinations by adapting the dense captions according to the model's existing knowledge.

#### Constant Beamwidth LCMV Beamformer

Ariel Frank, <u>Assaf Ben-Kish</u>, Israel Cohen. **EUSIPCO 2022**. link
Finding a design for a Constant Beamwidth LCMV Beamformer which is simple, computationally efficient and that has significant sidelobe attenuation.

# Research Projects

• Implementing and Improving the DDPG-MP algorithm - Final projects in Deep RL, <u>CRML</u> laboratory, Technion (i) Evaluating a robotic manipulation algorithm (ii) Improving the algorithm using Model-Based methods.

# Awards and Scholarships

- Direct-Track PhD Scholarship from The Center for AI & Data Science, Tel-Aviv University 2024
- Travel Grant from The Center for AI & Data Science, Tel-Aviv University 2024
- Award of Excellence for M.Sc Students, Engineering Department, Tel-Aviv University 2024

# Talks

- MIT CSAIL, SLS Group "DeciMamba: Exploring the Length Extrapolation Potential of Mamba" December 2024
- MIT CSAIL, Scale ML seminar "DeciMamba: Exploring the Length Extrapolation Potential of Mamba" June 2024
- Northeastern, Prof. Bao's Lab "DeciMamba: Exploring the Length Extrapolation Potential of Mamba" June 2024
- TAD Deep Learning Theory Retreat "Mitigating Open-Vocabulary Caption Hallucinations" April 2024

## Additional Experience

#### 2021-2023 - Algorithms Engineer at Vayyar

Development of Methods for Antenna Array Calibration:

Model-Based Trace Calibration and Model-Free Online Trace Calibration, Statistical Methods for Leakage Removal, Radiation Pattern Estimation, Created and Teached Vayyar's Array Calibration Course

- 2020 'Signals and Systems' Course Tutor at the Technion
- 2017 and summer of 2018 Software Developer at <u>Insoundz LTD</u>

- 2014-2017 Member of a leading R&D team at Unit 81 The Technological Unit of the Intelligence Branch, IDF
  - Specialized in R&D in the field of digital communication and reverse engineering
  - o Awarded outstanding employee of the Electrical Engineering Department (out of 1000 employees)

<u>Programming and Software knowledge:</u> Python, Matlab, C, C++, Linux and open-source software, such as: Pytorch, Docker, Pybullet, FFMPEG, etc.

# Community Involvement

- Mentor in a "Big Brother" program for new EE students at the Technion 2018, 2019, 2020
- Youth Movement Supervisor + Tutor of a child from a low socio-economic background 2013
- Year of Service The Jewish Agency, Greater New-Haven, CT, USA 2012-2013

Languages: Hebrew, English - native tongue level
